

AIR CANADA SCHEDULE CHANGE

Join Pastor Andrew & Colleen Allison Walking Together Where Jesus Walked Through Israel

You'll never be the same.

The tour is now planned for March 9 – 20, 2020 WHICH NOW INCLUDES 1 MORE DAY IN ISRAEL

Unfortunately, Air Canada advised us of a schedule change – they are no longer flying on Tuesday March 10 as planned for this tour*.

Since we have 45 participants, we advised Israel of the schedule change, asked them to try to accommodate the departure 1 day later and add 1 day/night at the end of the tour. Only the reply was that they could not secure hotel rooms for that option.

The suggestion from Israel was that we fly 1 day earlier and that way we need only find 1 additional night in a Tel Aviv hotel.

Rather than cancel the tour we secured the March 9 departure, with services in Israel provided upon arrival and 1 night in a Tel Aviv hotel. See the online itinerary.

While the cost of touring is \$478 per day (tour cost divided by 9 days on the ground) we have secured the additional services of guide, bus, hotel and meals at a modest additional cost of only \$75 per person.

This is the best we can do to try and mitigate the circumstance.

We understand the inconvenience this schedule change might cause.

Hopefully the fact that the schedule change has occurred this early on, will leave sufficient opportunity for all to prepare and make arrangements so that you might still benefit from this unique and inspiring journey.

We trust that the added value of arriving a day earlier, doing a short tour of Jaffa and with an afternoon at leisure to help overcome jet lag, at such a modest cost, will satisfy all our participants.

We look forward to serving you on the new tour dates and regret any inconvenience this might cause.

Please confirm your consent to the modest additional cost and participation on the new dates for the tour by return email to Sara sara@ihtours.com and Avie avie@ihtours.com as soon as possible

In the event that you are not able to travel on the new dates please advise by return email as listed above.

* According to IATA regulations, airlines govern their flight schedule and the practice is that when there is a flight cancellation, as long as the airline provides a viable alternate flight / route so that one reaches the destination there is no further airline obligation.

In this case Air Canada are not operating a flight from Toronto to Tel Aviv on March 10.

One can either fly a day earlier or a day later.

Where group flights are impacted airlines are not obliged to cover the additional expenses incurred.
